

Seminar on Support to Testing and Certification Industry

25 October 2010 (Monday)

This seminar introduces various support now provided to the testing and certification industry, including facilities available for shared use and R&D work by Hong Kong Productivity Council, the service of Product Standards Information Bureau of Hong Kong Accreditation Service and the Small Entrepreneur Research Assistance Programme. It also includes a session on ethical practice by Independent Commission Against Corruption. The seminar is targeted at practitioners of the testing and certification industry. Members of the public are also welcomed to attend.
