<p>Brief Introduction of the Company We are Fugro, the world’s leading independent provider of geo-intelligence and asset integrity solutions for large constructions, infrastructure and natural resources. We provide the technical data and information required to design, construct and maintain your structures and infrastructure in a safe, reliable and efficient manner. With almost 40 years of experience in Hong Kong, we were the first international geotechnical specialist to provide services here. Today we are one of the reputable firms in providing civil, structural, geotechnical and structural instrumentation, environmental service and laboratory testing to a wide variety of clients in Hong Kong and Southeast Asia, including many Government departments, private developers, architects and planners, utility companies, oil and gas companies, contractors and other consulting engineering firms.</p>
