The testing and certification (T&C) industry has always been a vital force underpinning Hong Kong's pursuit of high-quality development. With a robust accreditation system, the industry provides independent third-party quality certification and product testing services with utmost professionalism and integrity. This boasts confidence of both local and international buyers in products and services, drives industrial development and upgrading in Hong Kong and the Greater Bay Area, as well as fosters the deep integration of technological and industrial innovation.

The "Testing and Certification Manpower Development Award Scheme 2025-26" has garnered enthusiastic participation from all sectors of the industry, achieving unprecedented success and scale. Outstanding talent is the key to developing industries and unlocking economic prosperity. I extend my heartfelt congratulations to all the award-winning T&C bodies and professionals. I hope that everyone will remain steadfast in their roles, persevere with dedication and nurture more outstanding talents to collectively add new luster to the shining brand of "Tested in Hong Kong, Certified in Hong Kong."

Lastly, I would like to express my gratitude to Professor Wong Wing-tak leading the Hong Kong Council for Testing and Certification and continuous efforts in driving technological innovation and exploring new markets for the industry. I am confident that as long as our industry and practitioners embrace the principle of "pursuing perfection", persevere in self-improvement, and continuously enhance their competitiveness, we will surely ride the waves of market changes and together write a new chapter of glory.

香港檢測和認證局自 2021 年起主辦「檢測認證人力發展嘉許計劃」。我很高興見到社會對業界的認受性，以及整個業界對人力發展愈來愈重視。從首屆 6 間支持機構增至今年的 19 間，而參加機構和專業人員的數目更是歷年之冠，可見一斑。在此，我向各得獎機構和專業人員致以衷心祝賀，見證這一重要時刻，一同分享喜悅。

創新科技署全力配合香港檢測和認證局以多管齊下的方式支援行業發展，攜手業界和其他持分者共同進步。我留意到局方通過重塑品牌、全新多功能網站和善用社交媒體；並推出一系列凝聚青年的推廣活動，包括封面專題報道，讓優秀專業人員分享他們的工作點滴，及詳細介紹全港專上學院提供檢測認證的多元課程；邀請業界精英和大專生為中學師生進行的大型演講會等，全方位提升年輕一代對檢測認證學科與專業發展的認知與興趣。

我再次感謝香港檢測和認證局主席黃永德教授和成員多年來默默耕耘，為行業發展所作積極貢獻。讓我們同心同行，為行業創造更美好的未來。

The Hong Kong Council for Testing and Certification (HKCTC) has been organising the "Testing and Certification Manpower Development Award Scheme" since 2021. I am delighted to see the growing recognition of our industry within the community and the increasing emphasis on manpower development across the sector. This is evident from the increase in supporting organisations from 6 in the inaugural year to 19 this year, coupled with a record-high number of applications from organisations and professionals. I extend my heartfelt congratulations to all award-winning organisations and professionals, and I am honoured to witness this significant moment and share the joy together.

The Innovation and Technology Commission fully supports HKCTC's multi-pronged approach to industry development, collaborating with the industry and other stakeholders to foster mutual progress. I note that HKCTC has rebranded, launched a new multifunctional website, and effectively used the social media. A series of youth-engagement activities have also been rolled out, including cover stories where accomplished professionals share their work experiences, as well as detailed introductions to the diverse T&C programmes offered by Hong Kong's post-secondary institutions, and a large-scale seminar where industry leaders and university student engaged with secondary school teachers and pupils. These efforts comprehensively raise awareness and interest among the younger generation in the T&C studies and career opportunities.

Once again, I extend my gratitude to Professor Wong Wing-tak, Chairman of HKCTC, and its members for their years of dedicated service and active contributions to the industry's development. Let us walk in unity to create an even brighter future for the industry.

The local testing and certification industry plays a vital role in our daily life and helps assure the safety and quality of products as well as their compliance with international and regional standards. Its quality assurance work also supports the manufacturing, export and other services, which is an integral part of the supply chain, making significant contributions to Hong Kong's external trade.

The Government established the Hong Kong Council for Testing and Certification (HKCTC) in 2009 to advise it on the overall development strategy of the testing and certification industry.
